

Mother's Morning Out

Research shows that toddlers learn by exploring and discovering the world that they live in. This is accomplished through play. Play equals learning.

The teachers in MMO focus on providing an environment that is loving, sensitive, responsive, and playful. We are aware that parent separation can be difficult and we are loving and patient in our efforts to calm the child and reassure him/her that mommy or daddy will be back.

Our days include a lot of singing, dancing, listening to music, reading, and just having FUN!!!
